

Parent Safety Reminder: Supervision of Children During Worship Services

Our church is committed to providing a safe, welcoming environment for every child and family. To ensure the safety of all minors and prevent accidents or security risks, we ask all parents and guardians to follow the guidelines below during worship services.

Why This Matters

- Unsupervised children may be exposed to safety risks
- Children may unintentionally damage property or enter restricted areas
- Our security team cannot safely monitor every part of the building without your partnership

Parent Expectations

- Children must remain with a parent/guardian at all times unless checked into an official church program
- If a child has a need to go to the bathroom, get water or step out of the sanctuary for any reason, a parent must escort them
- Do not allow your child to roam hallways, classrooms, offices, or outdoor areas alone
- Pick up children promptly from children's sabbath school class

How You Can Help

- Remind your children that wandering the building is not allowed.
- Ensure they know where they should be during service.
- Respond promptly if security or ministry staff need to reach you.
- Keep children in sight.

Our Commitment

Our security team and ministry leaders partner with families to maintain a safe environment. Thank you for helping us protect every child and maintain a secure place of worship.
